AD LECTOREM.

VNIVERSA quæ ex hisce Strabonis Geographicorum commentarijs petenda uidebatur, in indicem secundum alphabethi seriem ueluti in suas quasq; capsulas concessimus, nimirum quo lectoris diutius inquirendi fastidium tolleremus. Quod utinam, qui id ante nos tentauit Mancinellus ea fœlicitate præstisset, ut nostro hoc labore nihil opus fuisset. Gloriatur enim uir ille in epistola quadam se haud illiberali mercede ad hoc conductum, ceterum quām infœliciter absoluere, facile deprehendet quisquis hanc nostram castigationem cum suo conferet indice, nempe quām ridiculè uoculas sāpe aut nō satis intellectas, aut alioqui corruptas continuo ueluti nouum aliquid in indicem digefferit, id quod nihil mirum fuit in homine qui Græca eruditione destitutus, non poterat exemplariorum collatione adiuuari. Tu pro candore tuo lector, quicquid id est minutiorum quod à me præstamus, ñnñtē, & uale.
