Canto, *Imm tu 257*

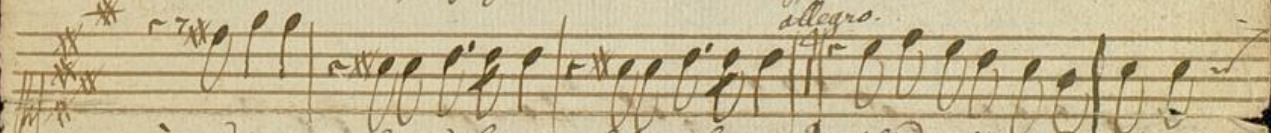

Felix nos, bona dies, felix nos in qua saluator natus est. bona dies,

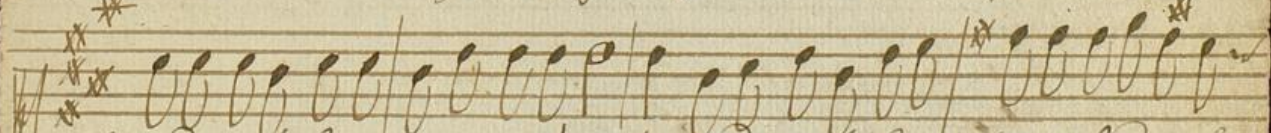

bona dies in qua pax mundo facta est, felix nos, bona dies *solo.*

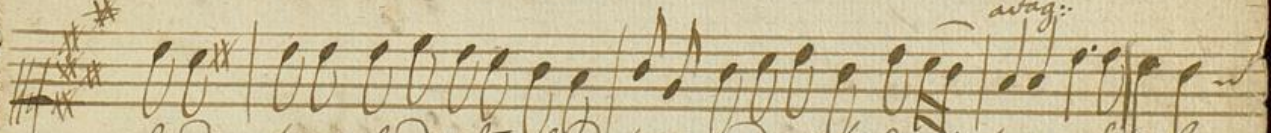

luci dignissimam, in qua fugatis tenebris, dies appi ra - vit *noctem,*

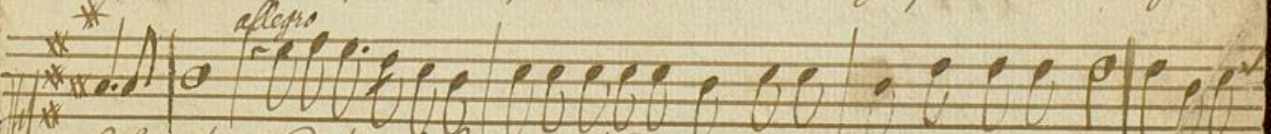

o diem luci dignissimam feli cissimam? Plaudite calu plaudite terra

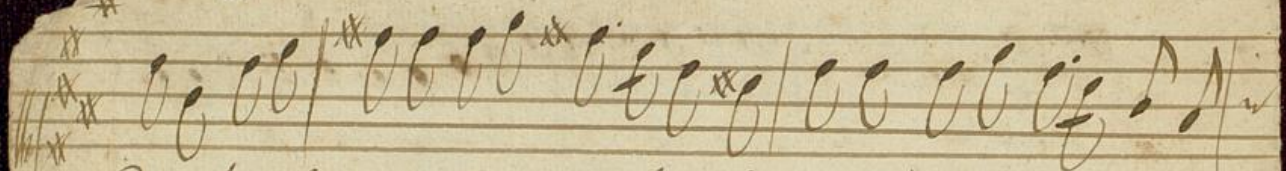

nam de morte sempiterna, nam de morte sempiterna plaudite caelum

plaudite terra, plaudite calu plaudite terra nam de morte sempiterna nati infans

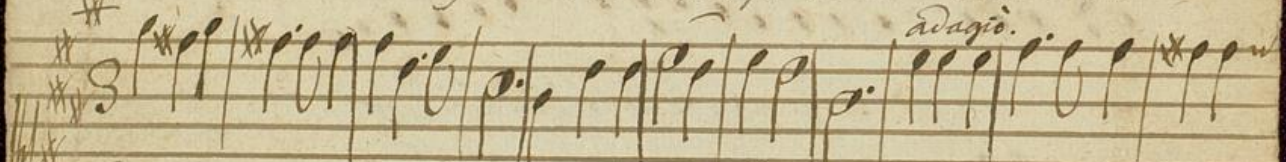

liberati. Rident angeli lae tantes choros ducunt egul tantes egul tantes choros

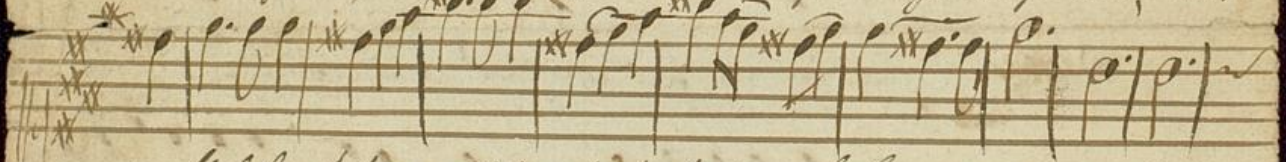

Ducunt quae tantae, vident angeli lae tantae, vident angeli lae =

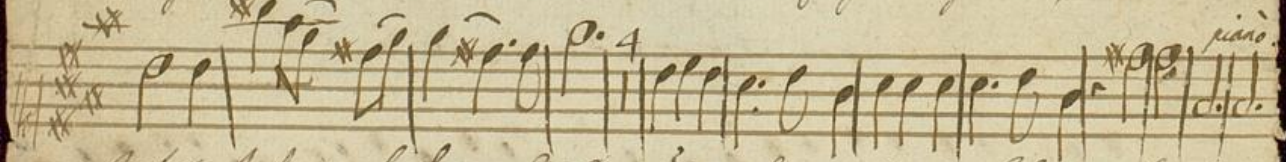

tantae, choros ducunt quae tantae, et pu el lo concinunt.

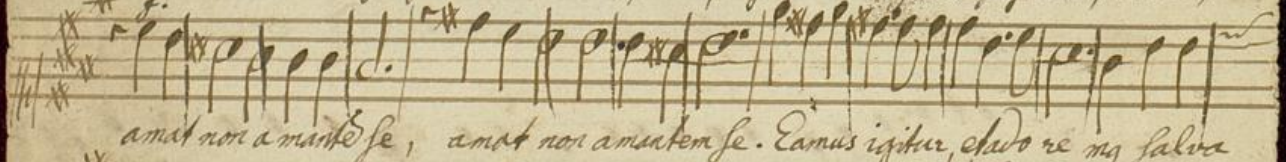

Eamus igitur, et adoremus salvatorem nostrum. Jacet in stabulo, iacet

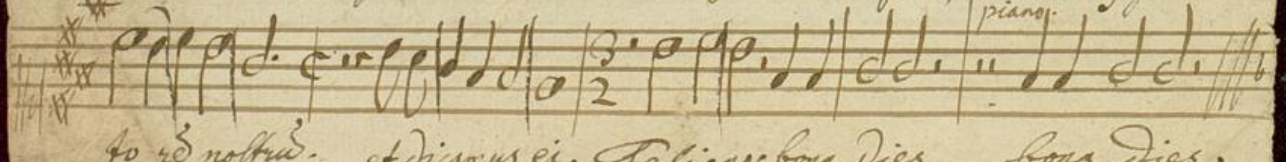

in stabulo totus amabilis totus totus affabilis, totus,

totus totus affabilis, quod in praesepe ligat in fascias, clamat, amat

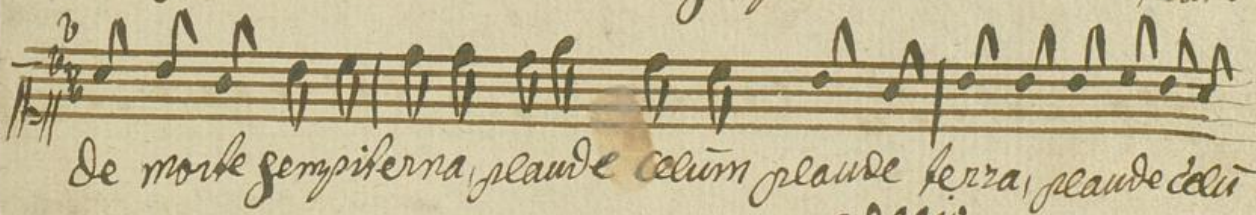

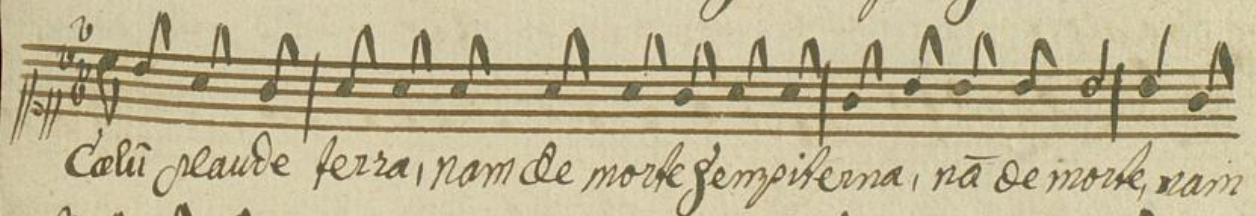

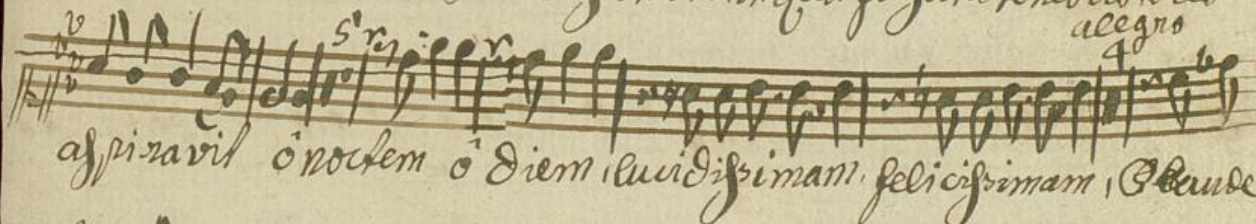

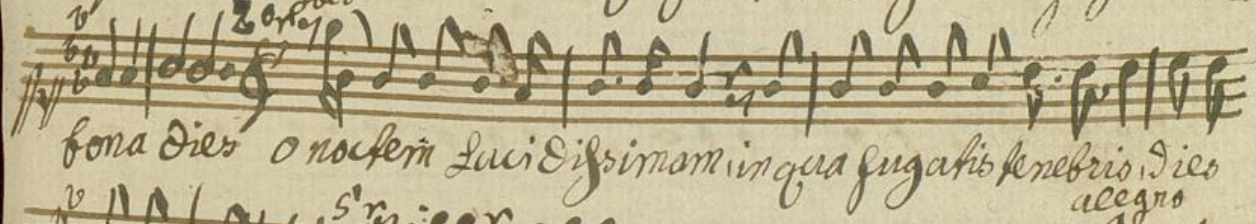

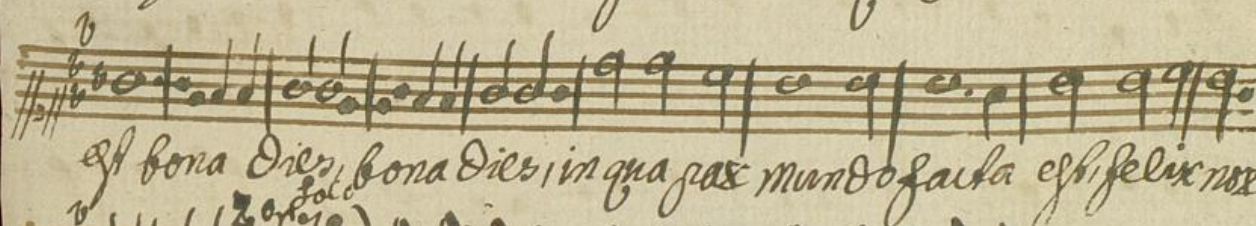

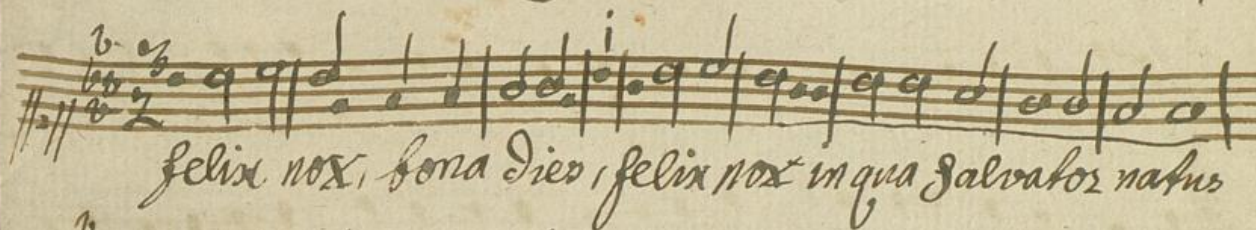

amat non amantem se, amat non amantem se. Eamus igitur, et adoremus salvatorem

nostrum. et dicimus ei. Felix natus bona dies, bona dies.
