The Dancing Ring

Amusing Explosion.

There is a tree growing in America, which they call the Devil's tree; its fruit, in a state of maturity, is elastic, and when dried by the heat of the sun, noisily splits, and bursts forth its grains. To this sport of nature, the tree owes its name; for, at the moment of bursting, the effect of a piece of artillery is produced, the noise of which succeeds rapidly, and is heard tolerably far off. If its fruit be transplanted, before it is ripe, to a dry place, or exposed on a chimney-piece to a gentle heat, it will have the same effect, and produce the same phenomenon.

The Floating Needle.

Pour some water in a plate: then drop a needle lightly and carefully upon the surface, and it will float.

The Dancing Ring.

Procure a hollow ring, and fill it with quicksilver by means of a small hole; stop up the hole with clay, and, having heated the ring over a candle, put it down upon the table, and it will dance about until the quicksilver becomes cold.
