ex ꝓceditio generis et differentiæ, differentia ꝑ speciem, quod agit ꝑ se de genere speciem ꝙ. Ipsa genus et species ꝯstituunt etiam obiectum adæquatum

Obiectio obiectum adæquatum et attributionis esse, ad quod omnia referuntur, et illud non refertur ad aliud, sed genus, differentia, species ꝙ referuntur ad aliud, quod non pertinet obiectum adæquatum. non est certa; m̄ in qua e ꝯstans ꝯplexus potius. — Num: 123.

Nº ideo subiectum et prædicatum, quæ a nobis ꝯsiderantur excluduntur a ratione obiecti adæquati, referuntur ad aliud scilicet propositionem, quia sunt partes propositionis, et propositio non potest esse sine subiecto et prædicato, sed etiam genus et differentia sunt partes ꝯpositionis ꝑ argumentationis, et certe nec argumentatio sine propositione, nec propositio sine genere et differentia ꝯstitui potest, quod sicut subiectum et subiectum, ita et genus et differentia referuntur ad aliud

2do Ideo subiectum et obiectum referuntur ad propositionem, quia sunt eius incompleta, sed etiam genus et differentia sunt ea incompleta. quod in partem, genus dicit partem potentialem etc., ideoque dicit quod ꝯstitutibile, ea a ꝯstitutibili est quod incompletum; differentia etiam ꝯpositionem tale incompletum ꝯponitur in recta linea predicati. sed subiectum ad categoriam quod ꝯstituendum, ꝯsi differentia ordinatur ad aliud. et non ꝯditum, sed quod eam indirecte attingitur in predicatis, non attingitur ꝑ se in predicabilibus.

3tio et actus mentis operatio ordinatur ad 3tiam. quod et in ꝯstituta 1a et 2do de genere differentia, propositio ordinabiliter ad 3tiam utpote ꝯfectam. a vero genus potest ꝯsiderari in 1a et 2a mentis operatione inveniuntur in 3tia, ꝯsequenter quod 1a et 2a sunt ꝯstitutione ordinantur ad 3tiam. Sed.

Obiectio ad 3tiam syllogismum. cum non m̄, ad cuius 1a ꝯstitutione dicitur, ideo subiectum et prædicatum ordinantur ad propositionem, quia ex prima ratione sunt partes propositionis cum non quia ex 2da ratione sunt partes non ea, sed etiam genus et differentia sunt partes ex 2da ratione cum ex prima non m̄: subiectum enim et prædicatum in sua ratione et definitione involvit esse partem propositionis, genus autem nullo modo involvit esse partem definitionis cum non definiat esse prædicabile de pluribus specie differentibus vel dici de pluribus, quæ non ex prima ratione ingreditur syllogismum, utpote ad quem non ꝯfirmat, sicut propositio non est in syllogismo, sed ut præmissa: obiectio ꝯsequenter solvenda erit ab iis, qui admittunt modum sciendi strictè sumptum ꝑ obiecto. non est definitio per se ingredi syllogismum, et tamen recta adeptione definitione peracta obiectum attributum sit acquiratur cum aliis suis proprietatibus, ex sola enim, quod ad solutionem obiectionem nobis. cum sed attributionum obiectum attributionis, quod potius dici de genere, propositione ꝙ, quod a definitione sine genere et differentia, syllogismus sine propositione ꝯstitui non potest, cum exigua et indigna definitio et ꝯstitui non ꝯveniat propositionis. Utraque exigua et indigna ꝯsidera cum esse aliæ, non a exigua et indigna alteri ea laudatum, cum potest esse brutum, ꝯsequenter tamen ꝯstituitur.
