Commentarius Curationis
Joannis G. Andernaci
Per D. Davidem Haug.

Cum Dominus [illegible] curatur ex parte Paulla, et ei consentaneis, ut quidem expertus, summa diligentia adhibenda esset, ut ea vita per totum fere curriculum, et tempus quo [illegible] prescribetur, verius semper habeatur; hoc quod ut si quando ex [illegible] debilitetur, per intervalla intermittatur. Non enim sic morbus inveteratus, subito et violenter, radicitus extirpari, sed per vices, et longiori temporis spatio. Quia vero corpus facile humoribus [illegible]: tum ex aliis, tum ex omisso exercitio colligere consuevit, necesse est, ut id singulis quibusque diebus septem catapotiis expurgetur paulo ante cenam assumptis, aut in aurora, ita tamen ut somnus eorum subsequatur, habeant autem in hunc modum.
